# Android™, Apple® & Windows 8®

## TPControl Apps Now Include Windows Support

## TPControl Features Including Voice Control

Touch Panel Control, the only AMX authorized product partner to provide touch panel functionality from Apple® or Android™ mobile devices, has added several exciting enhancements, including the ability to verbally, "voice-activate" control functions. Now you can simply say "adjust lights to daytime setting" and TPControl will do the rest - instructing your AMX control system to execute the requested action and confirm with the audio response "the lights have been adjusted to 50% of full brightness." Check out a spotlight of the enhanced TPControl features listed below.

- **VoiceControl** - Using Speech-to-Text and Text-to-Speech functionality within TPControl allows you to talk to your control system and have it talk to you.
- **AppControl** - Launch installed applications directly from TPControl; start an SMS, launch an email client, web pages and much more without leaving the TPControl environment
- **Multi-Profiles** - Dynamically and instantly change connection profiles such as office or home, connecting seamlessly to different control systems from the same device
- **Intercom** - Converse from TPControl to devices such as the AMX Metreau Communicator, AMX Intercom enabled touch panels, and other TPControl enabled devices
- **TPCloud** - Cloud power lets you update TP4 files, change device settings or even apply tokens to TPControl devices, right from the My Account section of the Touch Panel Control website
- **eICSP** - Encrypt, verify and secure ICSP data for your local and remote connections

## AMX on Android

TPControl Apps are available for Android Phones and Tablets and work seamlessly no matter which device you are using. All Android Apps are available for a free, fully-functional, 21-day trial download. For detailed information, download instructions and support, visit **touchpanelcontrol.com**. Contact your AMX Representative to purchase Android App licenses.

## AMX on Windows 8® / RT

### You wanted it – you got it!

The demand for a Windows 8® TPControl App was incredible so the team at Touch Panel Control went to work and now it's here. TP Control enables Windows 8 PCs and tablet devices to transform into a fully functional touch panel for controlling AMX system platforms. This easy-to-use application provides real-time, touch control of AV systems, lighting, shades, room temperatures and more. These Windows 8/RT devices can seamlessly communicate with an AMX control system via 3G, GPRS and EDGE cellular networks, or WiFi, to allow the convenience of remote use. Supported devices include: Windows 8 PCs, Windows 8 Tablets.

## AMX on Apple

TPControl Apps are available for Apple iPads, iPhones and iPod Touches and work seamlessly no matter which device you are using. All Apple Apps are available for a free, fully-functional, 21-day trial download. For detailed information, download instructions and support, visit **touchpanelcontrol.com**. Contact your AMX Representative to purchase Apple App licenses.
